

Toothbrushes are great for taking care of your teeth.

What about your *gums*?

Economical

The new thumb slider precisely controls the flow for precision delivery of expensive anti-microbial agents. No waste.

Large Controls

Make it easier for the elderly, arthritic or children to use.

Measuring Lines

Mix & measure solutions in the reservoir.

Fingertip Control

From 1,200 powerful pulsating jets to a gentle stream for irrigating tender gums ... infinitely variable with a flick of the thumb.

Small Footprint

Takes up less bathroom countertop space. A wall mount is included with every unit.

Subgingival Tip

Optional cannula adaptor for irrigating even the deepest pockets.

Rugged Reservoir

Nearly break-proof. Blue tint hides any chemical stains.

Flip Top Lid

Tough new lid design keeps solutions fresh and easy to refill

Internal Storage

Extra tips & power cord store inside the unit.

**Fingertip Control • Economical • Large Controls • Measuring Lines • Small Footprint
Subgingival Tip • Rugged Reservoir • Flip Top Lid • Internal Storage**

Gum diseases are the major cause of adult tooth loss. While cavities are a big problem for kids, once you're an adult you're far more likely to lose your teeth to gum diseases. The older you are, the greater the risk. According to the National Health & Nutrition Survey, 90% of adults have gingivitis, an early form of gum disease. 50% of those over age 55 have periodontitis; the worst form of gum disease. Unless something is done, they'll likely lose their teeth. Even worse, Studies have linked periodontal diseases to serious medical problems like heart disease, diabetes, respiratory disease and osteoporosis.

Gum diseases are caused by subgingival bacteria that live below the gums where it's difficult to clean with a toothbrush. The Viajet Oral irrigator reduces bacterial levels with 1,200 pulses of water that flush out bacteria and food particles from under the gums and the nooks and crannies around the teeth, leaving the mouth feeling clean and invigorated.

Dr. Paul H. Keyes has used and recommended Viajet Irrigators for over 20 years. In fact, some of the features on the current Viajet Pro were his original suggestions.

Special Offer for Saturday Evening Post Readers
